Echo Valley Ranch & Spa COVID19 Safety Plan

Echo Valley Ranch & Spa takes the safety and well-being of our staff, guests, and community very seriously. We are closed to guests for the 2020 season and won't reopen until April 2021. Our team works and lives together at the ranch and each team member has completed a 2-week quarantine before interacting with other team members or ranch animals.

When receiving deliveries all items are stored in a designated room for 72 hours before being touched.

We also have a separate protocol for outside contractors required to come to the ranch, which is available upon request.

In addition, we have implemented the following protocols to ensure we are meeting all standards and to create a safe work environment for our team.

- Increased cleaning and sanitization of all work spaces and highly touched surfaces as well as common areas
- Implement increased hand washing and personal hygiene practises for all staff, guidelines have been made available to everyone
- Ask all staff who show any signs or symptoms of illness to stay in their room
- Designated accommodations for any staff who needs to be quarantined if developing symptoms
- All our staff is aware of location of gloves and masks available to them and have been provided with instructions on proper use and disposal of such
- No outside visitors are allowed at the ranch at this time, only one designated delivery person is allowed and places any deliveries into the designated area unsupervised
